Martín Seba

Web developer and IT technician

PROFILE

IT technician and web developer, co-founder of Fox Circuit. I build custom websites, digital menus and tools with their own backend, host them on AWS and support them after launch. I have over 4 years of experience in hardware and software support.

EXPERIENCE

Fox Circuit — Present

Co-founder · web development and support

- Design and development of client websites such as Estudio Ombú and Buen Repulgue.
- Panels that let clients edit text, photos and prices; forms connected to WhatsApp and email.
- Hosting and domains on AWS, HTTPS certificates and backups.
- Google ranking (Search Console), Google Analytics and Meta Pixel for advertising.

IT and technical support — 4 to 5 years

Support for individuals and businesses

- Hardware and software diagnostics and repair.
- Setup and maintenance of Windows and Linux computers.
- Network, email and backup configuration.

PROJECTS

Estudio Ombú — 2026

A five-section website for a property management firm, with a panel to edit the text.

Buen Repulgue — 2026

A digital menu by category, with search, dish variants, a cart and pickup times.

Fox Circuit · foxcircuit.com — 2026

The studio's website: interactive demos, a quote builder and Google ranking.

EDUCATION

IT technician — 4 years

Technical training in hardware, software, networks and programming.
